How to Order
1500 Series terminal blocks are ordered by listing a composite number made up of the model designation in which the last two digits indicate the number of poles required for the application. Example: A 1500 10-terminal block (3/8” centers) becomes stock number 1510.
Suffixes are used as follows:
   ST denotes double solder lug
   3/4ST denotes single solder lug
   Y denotes printed circuit pin
   YWY feed-thru wire wrap
   W wire clamp
The 1510 described above, with double solder lug mounting on 3/8” centers thus converts to stock number 1510-ST. To specify quick-connect terminals, simply add the style number required. (See accessories.) May be purchased factory-assembled or as customer-installed accessory.
